

EVERBUILD P18 PLUMBERS GAS LEAK DETECTOR

Colour	Product Code	Pack Size	Box Qty
-	P18GASLEAK	400ML	12

Product Description

EVERBUILD P18 GAS LEAK DETECTOR is a specially formulated micro porous foam designed specifically to identify even the smallest, gaseous leak. It is suitable for use with most gases and is compatible with paintwork, metals, wood and most plastics.

This product is designed to be used to trace costly and potentially dangerous gas leaks

Benefits

- Suitable for most gas types.
- Fast and easy to apply.
- CFC free.
- Directional tube for hard to reach places.

Areas for Use

- Detecting leaks in pressurized pipe systems.
- Suitable for use with most gas types including natural and town gas, compressed air, butane, propane, acetylene, chlorine gas, hydrogen and oxygen.

Limitations

- Use only as directed.
- Do not spray directly onto skin as freeze burns can occur
Test compatibility with painted surface and rubber prior to application

Application

Shake can well before use and regularly during application. Always ensure the canister is at room temperature before applying.

Spray from a distance of 25-30cm onto the area to be tested.

If a leak has been detected, bubbles will form in the applied film indicating the location of the leak.

Health & Safety

Consult MSDS for full list of hazards.

Storage

Store in cool dry conditions away from sources of ignition. Protect from freezing.

Shelf Life

12 months from date of manufacture.

The technical data contained herein is based on our present knowledge and experience and we cannot be held liable for any errors, inaccuracies, omissions or editorial failings that result from technological changes or research between the date of issue of this document and the date the product is acquired. Before using the product, the user should carry out any necessary tests in order to ensure that the product is suitable for the intended application. Moreover, all users should contact the seller or the manufacturer of the product for additional technical information concerning its use if they think that the information in their possession needs to be clarified in any way, whether for normal use or a specific application of our product. Our guarantee applies within the context of the statutory regulations and provisions in force, current professional standards and in accordance with the stipulations set out in our general sales conditions. The information detailed in the present technical data sheet is given by way of indication and is not exhaustive. The same applies to any information provided verbally by telephone to any prospective or existing customer.
